PROFESSIONAL SUMMARY

- Consultant and strategy analyst with three years across transformation, corporate strategy and competitive intelligence, who structures ambiguous, data-heavy problems into clear strategic options and board-ready recommendations for executive and board audiences.
- Governs strategic initiative portfolios from scope through phased deliverables and dependencies, pairing market, competitor and financial analysis with hands-on delivery support to keep high-priority initiatives on track.
- Facilitates workshops with executives and delivery teams to align stakeholders and drive delivery, and builds dashboards and portfolio reporting with Power BI and AI-assisted automation.

PROFESSIONAL EXPERIENCE

Associate Consultant | NCS Australia — Technology Advisory

Feb 2025 – Present

- Partnered with the NCS' Global Transformation Officer and National Strategy Lead to shape a \$10M-plus IT transformation program, defining scope, phased deliverables and dependencies for a new operating and delivery model.
- Surfaced \$257,000 in forecast-to-actual budget variances across 19 teams on the transformation program, investigating each discrepancy with initiative owners and shaping budget and process recommendations adopted across all of them.
- Facilitated more than 20 strategy workshops with executives and delivery teams to frame problem statements, size capacity needs and co-design scalable operating roadmaps, improving decisions and stakeholder alignment.
- Replaced static reporting with interactive dashboards that gave visibility into workload across nineteen teams, built with AI-generated VBA logic, in-house AI assistants and Microsoft Copilot, and cut editing time from roughly five hours to about thirty minutes per report.
- Built the cost comparison model behind a business case appraising 5 content management systems for a utilities client, weighing upfront replatforming, three-year licensing and hosting and technology costs, and summarised the options and a costed recommendation, a \$200,000 replatform of an expanded CMS, in the final report to the client's CIO.

Strategy Analyst | Pacific National — Strategy & Competitive Intelligence

May 2024 – Nov 2024

- Delivered 6 monthly competitive intelligence reports to executive leadership and the board, profiling 3 major competitors and applying macroeconomic scenario forecasting to sharpen strategic positioning.
- Built interactive Power BI dashboards and graphs for macroeconomic and strategic reports, giving executive and board audiences clearer, faster views of the underlying analysis.
- Modelled current-state market share across 4 national corridors, pinpointing the highest and lowest performing segments to define the opportunity set and prioritise expansion targets.
- Scoped, researched and delivered a board-requested strategic report on Australian grain exports in 2 working days, mapping national and international trends, blockers and forecasts from industry and government sources.

Undergraduate Consultant | BDO — Digital & Technology Consulting

May 2023 – May 2024

- Ran 19 workshops across every business unit and the executive level to capture people, process and data requirements and co-design a data strategy roadmap, supporting implementation and adoption.
- Conducted primary customer research and analysed the findings to surface process-improvement opportunities that fed measurable business outcomes.

OTHER EXPERIENCE

- **Deloitte — Technology Strategy & Transformation Intern (2023):** Mapped processes across five business functions in Miro and Visio, identifying redesign opportunities that cut process cycle time by roughly a third.
- **BDO — Cybersecurity Intern (2022):** Reviewed 200+ documents across 4 projects to confirm client compliance with ISO 27001, SOC 2 Type II and APRA CPS 234.
- **BusinessOne Consulting — Strategy Consultant (2022):** Analysed 6 competitors in Australia's healthcare consulting market to sharpen the client's value proposition and positioning.
